

Square edge tile trim

Square edge tile trim, square edge aluminum tile trim, metal square edge trim

Square edge tile trim name: Aluminum square edge trim, square edge trim, metal square edge trim, aluminum square corner edge trim, square edge tile trim, square edge aluminum tile trim, aluminum tile trim square edge, anodized silver square edge tile trim, square edge metal tile trim, aluminum tile trim square edge

Square edge tile trim function: Aluminum square edge trim is an extruded aluminum profile which gives the square appearance; this makes it specifically useful when providing a finished edge for rectified, square cut porcelain, marble and stone. It is used to protect and decorate the edges of tiled floor and wall surfaces. Our aluminum square edge tile trims neatly finish and protect all tile edges. They are commonly used in all tiling applications and are supplied in a variety of sizes and colors.

Square edge tile trim materials: aluminum alloy

Square edge tile trim surface color: Mill finished, matt silver, anodized silver, anodized champagne, anodized bronze, anodized gold, anodized black, power coated in RAL color, wood grain, marble grain, bright silver, bright champagne, bright bronze, bright gold, brushing color, stainless steel color, sand blasting, hammer aluminum tile moulding, mechanical polishing and chemical polishing.

Square edge tile trim length: 2.44m, 2.5m, 2.6m, 2.7m and 3m and other length can be made according to the customers' request.

Square edge aluminum tile trim brings style, color, fashion and durability..... to every environment!
